Two cups in a single brewing operation	■
CLARIS plus filter cartridge (I.P.W.S.©-compatible)	■
Variable-volume brewing unit	5–16 g
Six-setting grinder	■
High-performance pump	15 bar
Thermoblock heating system	■
Additional pre-ground coffee powder	■
Automatic switch-off	■
Automatic scale recognition	■
Integrated cleaning / descaling programme	■
Adjustable water hardness	■
Coffee grounds container	16 portions
Connector System©	■
Professional Cappuccino Frother	accessory
Easy-Auto-Cappuccino Frother	■
Two-speed milk frother	accessory
Separate hot water jet	■
Rotary Switch	■
Symbol display	■
Height-adjustable coffee spout	65–111 mm

Key features

Automatic filter change notification	■
Automatic maintenance programme notification	■
Active bean level monitor	■
Automatic 'empty tray' display	■

Water tank capacity	1.9 l
Bean hopper with aroma preservation cover	200 g
Programmable coffee strength	3 settings
Amount of water adjustable	■
Programmable water quantity for coffee	■
Steam / hot water function	■
Milk container	accessory
Power switch	■

Facts

Cable length	approx. 1.1 m
Voltage	230 V AC
Output	1,450 W
Intensity of current	10 A
Weight	9 kg
Dimensions (B x H x D)	28 x 34.5 x 41 cm
Tests	CB, PSB, SIRIM
Article number / Color	13305 / black
Swiss Made	■

IMPRESSA

IF YOU LOVE COFFEE

Jura IMPRESSA C5
black

IMPRESSA C5: Click & Drink

The IMPRESSA C5 demonstrates how simple the enjoyment of a perfect cup of coffee can be. The latest addition to the IMPRESSA compact line sets new standards in coffee quality and looks as good as its performance. One of its most outstanding features is the smart operation: a whole range of coffee specialities can be made using a single control.

Click & drink

Thanks to the revolutionary, single Rotary Switch operating system, you are now just the push of a button away from a perfect cup of coffee. Simply turn the switch to choose between coffee and espresso, select one or two cups, and click. Seconds later, enjoy.

Displays

The easy-to-understand displays are illuminated in red and provide all the information you need. Within easy reach of the Rotary Switch and discreetly concealed are the maintenance buttons with their own illuminated displays.

Height-adjustable coffee spout

Whether it's a small espresso cup or a large one for your breakfast coffee, the height of the coffee spout can be adjusted continuously to between 65 and 111 mm and fits any size of cup. This prevents unsightly splashes on the machine and guarantees a sumptuous thick crema. It is also beautifully designed.

Connector System[©]

The Connector System[©] allows you to use the Easy-Auto-Cappuccino Frother, a dispenser for an even, regular hot water jet, and the optional two-speed milk frother or the Professional Cappuccino Frother to make perfect milk foam or hot milk.
