IMPRESSA C9 One Touch

SWISS  MADE

Compact cappuccino competence

The IMPRESSA C9 One Touch is the most compact JURA automatic speciality coffee machine, and treats you to a perfect cappuccino at the touch of a button and without having to move the cup. A simple, logical operating syntax combined with a plain text display guides you directly to your personal coffee preferences.

Cappuccino at the touch of a button

With its 2@1 Cappuccino Frother the IMPRESSA C9 One Touch makes your coffee dreams come true at the touch of a button without moving the cup. You can also permanently save your personal coffee preferences on the individual preparation buttons.

Eco-intelligence

Saving energy doesn't have to mean sacrificing enjoyment. Quite the contrary. In Energy Save Mode (E.S.M.®) the IMPRESSA C9 One Touch uses up to 40% less energy. The switch then disconnects the machine entirely from the electrical mains. With the IMPRESSA C9 One Touch you can be ecological without being any less indulgent.

The direct route to enjoyment

Thanks to the plain text display, the Rotary Switch and the clearly arranged and labelled buttons, preparing a wide range of speciality coffees is extremely simple. Just a touch of a button and the IMPRESSA C9 One Touch prepares freshly ground espresso, coffee and specialities made from ground coffee. And of course it also dispenses hot water and steam.

Height-adjustable coffee spout

Whether it's a small espresso cup or a large one for your breakfast coffee, the height of the coffee spout can be adjusted continuously to between 65 and 111 mm and fits any size of cup. This prevents unsightly splashes on the machine and guarantees a sumptuous thick crema.
